SUPPORTING STATEMENT

DCG aims to model good employment practice, including ensuring fairness and transparency in the way that it pays and rewards its existing and future employees.

It is understood that DCG's gender pay gap is explained by the fact that in the College's lower paid roles women predominate, reflecting wider societal norms and gender related career choices.

DCG already operates a range of policies intended to support women at work and particularly employees, mostly female, who have caring responsibilities at home.

We will continue to monitor pay and reward in DCG, including gender pay and equal pay, on a regular and ongoing basis so that all employees are treated fairly, irrespective of their gender and in accordance with our values and commitment to Equity, Diversity and Inclusion.

ERADICATING THE GENDER PAY GAP

We will continue with a focus on our recruitment and selection processes and practices to ensure equity, fairness and consistency are reviewed and further developed throughout. In addition, we will focus on ensuring all materials related to recruitment and selection are gender neutral in terms of imagery and language used.

Flexible working requests will continue to be supported wherever possible to encourage women to remain in DCG's employment and develop their career with us.

Opportunities for personal and career development at all levels within DCG will continue to be actively promoted to all female employees. A formalised approach to internal mobility and succession planning will be introduced as part of the strategy process.

DCG will continue to develop its culture to ensure that equity, diversity and inclusion is at the heart of all of our behaviours and practices.
