College attendance is a critical component of your journey, impacting your learning, personal development, and future career prospects. It fosters a conducive learning environment, promotes success, and helps build essential skills for your professional and personal lives.

Going on holiday during term time is not a reasonable excuse to miss your lessons. We would also expect you to book appointments with the doctor/dentist outside of College wherever possible. You will be expected to provide evidence of any appointments that cause absence. If you engage with our Support Services, you can overcome barriers to good attendance and succeed.

Your attendance levels will also form part of any reference requests for your next steps, whether this is a university application, an application for employment or an Apprenticeship – so stand out and be proud of showcasing good or outstanding attendance.

We expect **professional** behaviour from you! DCG promotes and practices the 5Ps of behaviour - to be **polite, prepared, punctual, positive, and professional** - this is expected in the library environment.

We expect everyone to be **polite**, courteous and respectful - and this means that we need to be considerate of other students trying to work in the library, and to the team members providing the library service.

Be **prepared** to use the library and all its resources effectively, so think about what you want to achieve before you come in.

Modify your behaviour by speaking quietly, and using the refectory, canteen and coffee areas for eating and drinking, unless you have bottled water, or a drink in a cup with a lid.

Remember to be **punctual** about leaving the library, either to go to a lesson, go for a break (or lunch), or even go home at the end of the day. And remember, other students will appreciate not being disturbed or interrupted as you leave.

Come to the library for a **positive** learning experience. We have tons of resources: books, eBooks, journals, magazines, PCs or Laptops, great study spaces, printers and copiers (MFDs), and a friendly, helpful and knowledgeable team who genuinely want to help you.

We want everyone to make the most of what we have to offer.

Health and Safety

Fire Evacuation / Fire Alarms

If the fire alarm sounds continuously, it is essential that you:

- Leave the building immediately by the nearest safe exit
- Don't stop to collect your belongings and do not use the lifts
- Report to your assembly point
- Do not re-enter the building until told to do so by a member of staff.

If you discover a fire, tell the first member of staff you see and sound the alarm. Leave the building by the nearest safe exit and report to the assembly point.

The consequences of false alarms and setting off fire extinguishers can be very serious and anyone deliberately raising a false alarm or tampering with fire-fighting equipment will be immediately subject to disciplinary procedures. We may refer the matter to the Police and/or seek to recover repair costs for any damage.

First aid or feeling ill

If you feel ill or have an accident in College, speak to the nearest member of staff. They will contact a first-aider or get you an ambulance if this is necessary. Staff can't give you any medication but they will be able to provide advice and emergency first aid, including arranging other help if appropriate. If you see anyone appearing to cause harm to themselves or others, please report this to a member of staff immediately.

Reporting accidents

If you think you have seen an accident or something that was nearly an accident, the College really needs to know about it! Make sure you tell a member of staff as soon as possible so the area can be made safe. In turn the member of staff will contact the Health & Safety Team, who will be able to undertake a full investigation

Wearing protective clothing and using safety equipment

Your tutor will inform you of any health and safety protective clothing or equipment (e.g. boots or eye protection) which should be worn or used in designated areas.

Protective clothing and equipment rules are in place to protect you from harm and you should always follow health and safety instructions from your tutor.

Unless informed otherwise by your tutor, you should always wear and use the protective clothing or equipment provided. If you are having issues with the clothing or equipment, it is your responsibility to inform your tutor.

Firearms and weapons attacks

In the unlikely event of a terrorist attack, remember to follow **RUN HIDE TELL**

RUN

If there is safe route, run, if not, hide.

HIDE

- Be aware of your exits
- Try not to get trapped
- Lock yourself in a room if you can
- Move away from the door
- Be very quiet, turn off your phone
- Barricade yourself in

TELL

Dial 999 when you are safe. Give your location and as much information as possible.

Unidentified individuals

- Are they wearing a College ID badge?
- Can they account for their whereabouts?
- Have you seen them before on site?

If you suspect anyone report them to a member of staff, giving your details, location, date and time. It may not be relevant now but may be in the future!

Mental health first aiders

At DCG we recognise that there might be times when you need to talk to someone about your mental health. Often talking through how you are feeling can have a positive impact, knowing that you do not have to cope with things on your own. Many staff at College are trained Mental Health First Aiders. They can provide immediate support and direct you to other services which might be helpful.

If you would like to talk to somebody, contact your Student Experience and Pastoral Coach or a Learning Support Trainer.

If you need pastoral or academic support, you can contact your Student Experience and Pastoral Coach at any point during your time at the College. To contact the Student Experience and Pastoral Coaches email: PastoralCoaches@derby-college.ac.uk

Resilience and mental health

Resilience is the ability to cope with difficult situations and emerge stronger. The good thing is, resilience is something you can learn, and the Resilience Team can help you develop strategies to use when you are facing challenging times.

We are here to support you if you are struggling with anxiety, low mood, depression, panic or worry and would like to develop some practical strategies to help yourself.

If you would like a 1:1 session with the Resilience Team, please ask a member of staff to refer you.

SAFEGUARDING SUPPORT AND SAFEGUARDING TEAM

Safeguarding is the action we take to promote the welfare of people and protect them from harm.

At DCG, safeguarding means:

- protecting people from abuse and maltreatment,
- preventing harm to people's health or development,
- ensuring people are cared for in a safe environment,
- taking action to enable all people to have the best outcomes.

If you need any advice or support you can contact our Safeguarding Team for a chat, email: safeguarding@derby-college.ac.uk, or speak to them, or a Student Experience and Pastoral Coach, in person whilst at College.

Behaviour and attitudes

All DCG students need to feel able to develop their potential without fear of physical, verbal or written abuse. As outlined in the Student Code of Conduct, all forms of anti-social behaviour within the DCG community will not be tolerated.

Bullying, including physical violence or threats, and racial and sexual harassment are forms of anti-social behaviour which will be subject to disciplinary action e.g. suspension or exclusion.

Bullying, harassment, victimisation and sexual misconduct may be by an individual, against an individual or may involve groups of people. It may be obvious or invidious; abuse of power can be explicit or implicit.

Bullying and harassment are not necessarily face-to-face. They may also occur through various other forms of communication (e.g., email, phone, written communication, and social media).

Bullying

Bullying may be characterised as:

offensive, intimidating, malicious or insulting behaviour, an abuse or misuse of power through means that undermine, humiliate or injure the recipient.

Some examples of bullying include:

- verbal and/or physical intimidation,
- ignoring, patronising or excluding,
- setting random or unachievable workloads in an unreasonable manner and making threats associated with failure to achieve,
- public reprimand, ridicule, sarcasm or humiliation,
- posting offensive comments on social networking sites or in other media,
- sending offensive text messages, emails or offensive messages through other forms of social media,
- intentionally blocking a person's training, learning or development opportunities.

What is online bullying?

The rapid development of, and widespread access to technology, has provided a new medium for 'virtual' bullying, which can occur in or outside the learning environment. Online bullying is a different form of bullying and can happen at any time of the day, with a potentially bigger audience, and more accessories as people forward on content at the push of a button.

Although some technology seemingly allows anonymity, there are ways to find out information about where bullying originated. However, it is important to be aware that this may not necessarily lead to an identifiable individual. For instance, if another person's phone or College network account has been used, locating where the information was originally sent from will not, by itself, determine who the bully is.

If you feel you or a peer is being bullied or harassed, you must report it to a member of staff who will refer to the relevant team.

Harassment

Harassment is defined in the Equality Act 2010 as:

Unwanted conduct related to a relevant protected characteristic, which has the purpose or effect of violating an individual's dignity or creating an intimidating, hostile, degrading, humiliating or offensive environment for that individual.

Some examples of harassment include (but are not limited to):

- Offensive or derogatory remarks, gossip or jokes.
- Obscene gestures or language.
- The display or electronic transmission of offensive pictures graffiti or other visual material.
- Physical contact (ranging from touching to serious assault), to which a person has not consented, or which they have not been given the opportunity to reject.
- Intrusion by pestering, including through the use of text messaging, email or other telecommunications.
- Following, stalking or spying on people.
- Pressing people to accept unwelcome invitations.
- Obtaining sexual or other favours through threats or by making promises.
- Isolation or non-cooperation and exclusion from social activities.

Sexual Misconduct

Sexual misconduct relates to all unwanted conduct of a sexual nature. This includes, but not limited to:

- Sexual harassment (as defined by Section 26 (2) of the Equality Act 2010).
- Assault (as defined by the Sexual Offences Act 2003).
- Rape (as defined by the Sexual Offences Act 2003).
- Physical unwanted sexual advances (as set out by the Equality and Human Rights Commission: Sexual harassment and the law, 2017).
- Intimidation, or promising resources or benefits in return for sexual favours.
- Distributing private and personal explicit images or footage of an individual without their consent (as defined by the Criminal Justice and Courts Act 2015).

Victimisation

Victimisation occurs when someone is treated badly because they have made or supported a complaint about discrimination or harassment, or because an individual thinks that they are doing or may do these things.

Some examples of victimisation include:

- Excluding someone from social situations following a complaint or rumour.
- Denying someone the opportunity to participate in a project, social event or apply for a placement opportunity because they are perceived to be a 'troublemaker'.
- Lowering a student's assessment results because they have made or supported a complaint.
